

Generation Services - Technical Support Agreement

BWSC offers fixed priced long term Technical Support Agreements backed by guarantees and thereby mitigating the plant owner's risk

A BWSC TSA can be tailored to meet the owner's needs based on a combination of the following elements:

- Spare parts packages for scheduled and unscheduled maintenance for all equipment at fixed price e.g. per running hour
- Experienced BWSC engineer(s) stationed permanently at the plant
- Management support, technical support, supervision, knowledge transfer
- Overhaul supervision for all equipment
- Overhaul crew
- Training; theoretical courses and/or on-the-job training
- Full technical back-up for support and trouble -shooting from BWSC engineering and service organisation comprising all technical disciplines pertaining to diesel power plants and our wide network of OEM's
- Remote DCS Support

Advantages for the plant owner:

- Competitive prices
- Predictable cost forecast
- Risk mitigating
- Performance backed by guarantees
- Spare parts delivered on-site in due time for overhaul
- Best practice technical support in all aspects of the power plant
- Minimised outage time
- Access to the entire BWSC technical organisation and our extensive network of Original Equipment Manufacturers (OEM)
- Building up knowledge among owner's staff
