BWSC Generation Services Ltd UK Safety Rules Confined Space Awareness Procedures Assessment

Part A

Any question incorrectly answered in Section A will result in a referral with your examiner after the test

For all Statements Circle True or False

What is a Confined Space Notice

1. A notice posted at some of the access points to the Confined Space referencing the Gas Free Certificate and time at which the Gas Free Certificate ceases to be valid.	TRUE	FALSE
2. A notice posted at all access points to the Confined Space referencing the Key Safe number quoted on the Safety Document, and where applicable the Gas Free Certificate and time at which the Gas Free Certificate ceases to be valid.	TRUE	FALSE

You are the safety man posted outside of a Confined Space and you see a work colleague collapse, what do you do?

3. Go in to find out what has happened to them	TRUE	FALSE
4. Contact the Control Room via radio, phone or in person	TRUE	FALSE
5. Send someone in to find out what has happened to them	TRUE	FALSE

From the list below signify which of them must be in place before an Acceptor Confined Space can put his working party to work in a Confined Space

6. A Confined Space Notice must be in place at all access points to the Confined Space	TRUE	FALSE
7. A Safety Document must have been issued for the work within the Confined Space.	TRUE	FALSE
8. All persons within the Working Party must have been trained to Safety Controller level	TRUE	FALSE
9. The Acceptor receiving the Safety Document must be an Acceptor – Power Plant and an Acceptor Confined Space	TRUE	FALSE
10. Where required by the Safety Controller an atmosphere test must have been carried out by an Appointed Person – Atmosphere Testing & be in date	TRUE	FALSE
11. Breathing Apparatus must be worn by one member of the Working Party and carried by the others	TRUE	FALSE
12. There must be adequate lighting within the Confined Space	TRUE	FALSE
13. A Standby Man must be In attendance at the entry point	TRUE	FALSE

What are the two main concerns when closing up a Confined Space

14. Trapping people inside.	TRUE	FALSE
15. Leaving tools or equipment inside.	TRUE	FALSE
16. Not sealing the door or access way properly.	TRUE	FALSE

**BWSC Generation Services Ltd UK Safety Rules
Confined Space Awareness Procedures Assessment**

Part B

For all Statements Circle True or False

Which of the following hazards are specifically associated with Confined Spaces?

17. Drowning	TRUE	FALSE
18. Oxygen Deficiency	TRUE	FALSE
19. Oxygen Enrichment	TRUE	FALSE
20. Falling from Height	TRUE	FALSE
21. Exposure to Moving parts	TRUE	FALSE
22. Being overcome by Fumes/Vapours emitted from sludge	TRUE	FALSE
23. Being overcome by Fumes/Vapours made during the work process	TRUE	FALSE

Indicate True or False to the following Statements

24. If the Confined Space Notice at the entrance point is missing or blank, entry is still allowed whilst the Acceptor finds out what the problem is.	TRUE	FALSE
25. Anyone entering a Confined Space must pass the BWSC GS UK Ltd fitness assessment before being allowed to work in a Confined Space	TRUE	FALSE
26. Persons may not enter a Confined Space unless they have received Confined Space training in BWSC GS UK Ltd Confined Space procedures	TRUE	FALSE
27. If the Gas Free Certificate expires, the Acceptor and all his Working Party must leave the space immediately	TRUE	FALSE
28. Gas bottles and electric welding sets are allowed in the Confined Space provided the risk assessment allows them	TRUE	FALSE
29. All persons within the Working Party must be wearing a Safety Harness	TRUE	FALSE
30. A Standby Man must be in attendance at the entrance point, outside the space at all times work is ongoing inside	TRUE	FALSE
31. If forced ventilation or any other safety measure provided for work inside a Confined Space fails, work may continue while the problem is investigated.	TRUE	FALSE
32. Consideration must be given on how to exit the Confined Space in the event of an emergency this should be addressed on the risk assessment.	TRUE	FALSE
33. There must be safe access and egress to and from a Confined Space	TRUE	FALSE
34. Anyone, regardless of age, fitness or build can work within a Confined Space	TRUE	FALSE
35. After the work is completed the Acceptor may remove Confined Space Notices and close up the Confined Space	TRUE	FALSE
36. Closure of a Confined Space can only be carried out after all Safety Documents that allow entry have been Cleared & Cancelled and the Confined Space Notice removed	TRUE	FALSE
37. Persons who are Confined Space trained can carry out Standby Man duties	TRUE	FALSE
38. A full rescue team must be on site before entry is allowed to any Confined Space at BWSC GS UK Ltd Locations	TRUE	FALSE
39. The Standby Man must be strong enough to rescue those inside the Confined Space	TRUE	FALSE

BWSC Generation Services Ltd UK Safety Rules

Confined Space Awareness Procedures Assessment

Indicate from the List below the duties of the Standby Man

40. Must be aware of site emergency contact numbers and have means to raise the alarm if the Working Party are in distress	TRUE	FALSE
41. Posts the Confined Space Notice at the entry point	TRUE	FALSE
42. Keeps a record of all Persons inside the Confined Space at any one time.	TRUE	FALSE
43. Be present at all times when ever there is entry into a Confined Space	TRUE	FALSE
44. Not enter the Confined Space for any reason	TRUE	FALSE
45. Go in and rescue someone if they are in distress	TRUE	FALSE
46. Ensure all Persons are withdrawn from the Confined Space if the site emergency alarms are initiated	TRUE	FALSE
47. Ensures the designated entry points are kept free from obstruction	TRUE	FALSE
